

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listing of the claims in the application.

**Listing of Claims:**

Claims 1-38. (Cancelled)

Claim 39. (Currently Amended) An anhydrous composition formulated for topical delivery comprising consisting of:

(a) an anhydrous vehicle consisting of about 1 to about 50 percent by weight of ethanol,

(b) a penetration enhancer consisting of about 1 to about 50 percent by weight of propylene glycol,

(c) a humectant consisting of polyethylene glycol and glycerin, in a combined amount of about 10 to about 80 percent by weight,

(d) glycerin ketoconazole in an amount of about 0.5 to about 3 percent by weight,  
[[and]]

(e) ketoconazole a gelling agent, and

(f) optionally one or more components selected from the group consisting of emollients, chelating agents, pH adjusters, antioxidants, viscosifiers, colorants, fragrances, UV stabilizers, and sunscreens, and

wherein the composition is formulated as an anhydrous gel ~~and does not contain a retinoid or a steroid.~~

Claim 40. (Previously Presented) The composition of claim 39 wherein the ketoconazole is solubilized.

Claim 41. (Cancelled)

Claim 42. (Previously Presented) The composition of claim 39 wherein the amount of the ketoconazole is about 2.0 percent by weight.

Claim 43-44. (Cancelled)

Claim 45. (Currently Amended) The composition of claim [[44]] 39 wherein the amount of the polyethylene glycol is about 20 percent by weight.

Claim 46. (Cancelled)

Claim 47. (Currently Amended) The composition of claim [[46]] 39 wherein the amount of the propylene glycol is about 20 percent by weight.

Claim 48. (Cancelled)

Claim 49. (Currently Amended) The composition of claim [[48]] 39 wherein the amount of the glycerin is about 20 percent by weight.

Claim 50. (Currently Amended) The composition of claim 39 wherein the ~~composition further comprises~~ one or more components is at least an emollient.

Claim 51. (Previously Presented) The composition of claim 50 wherein the amount of the emollient is between 0 and about 10 percent by weight.

Claim 52. (Previously Presented) The composition of claim 50 or claim 51, wherein the emollient is PPG-15 stearyl ether.

Claim 53. (Previously Presented) The composition of claim 52 wherein the amount of the PPG-15 stearyl ether is between 0 and about 2 percent by weight.

Claim 54. (Previously Presented) The composition of claim 53 wherein the amount of the PPG-15 stearyl ether is about 2 percent by weight.

Claim 55. (Currently Amended) The composition of claim 39 wherein the ~~composition further comprises~~ one or more components is at least a viscosifier.

Claim 56. (Previously Presented) The composition of claim 55 wherein the amount of the viscosifier is between 0 and about 5 percent by weight.

Claim 57. (Previously Presented) The composition of claim 55 or claim 56 wherein the viscosifier is hydroxypropyl cellulose.

Claim 58. (Previously Presented) The composition of claim 57 wherein the amount of hydroxypropyl cellulose is about 1.5 to about 2.0 percent by weight.

Claim 59. (Currently Amended) The composition of claim 39 wherein the ~~composition further comprises~~ one or more components is at least a pH adjuster.

Claim 60. (Previously Presented) The composition of claim 59 wherein the amount of the pH adjuster is between 0 and about 2 percent by weight.

Claim 61. (Previously Presented) The composition of claim 59 or claim 60 wherein the pH adjuster is selected from the group consisting of ascorbic acid, citric acid and combinations thereof.

Claim 62. (Previously Presented) The composition of claim 61 wherein the amount of the ascorbic acid is between 0 and about 0.3 percent by weight.

Claim 63. (Previously Presented) The composition of claim 61 wherein the amount of the citric acid is between 0 and about 0.5 percent by weight.

Claim 64. (Previously Presented) The composition of claim 62 wherein the amount of the ascorbic acid is about 0.3 percent by weight.

Claim 65. (Previously Presented) The composition of claim 63 wherein the amount of the citric acid is about 0.1 percent by weight.

Claim 66. (Currently Amended) The composition of claim 39 wherein the ~~composition further comprises~~ one or more components is at least an antioxidant.

Claim 67. (Previously Presented) The composition of claim 66 wherein the amount of the antioxidant is between 0 and about 2 percent by weight.

Claim 68. (Previously Presented) The composition of claim 66 or claim 67 wherein the antioxidant is selected from the group consisting of ascorbic acid, butylated hydroxytoluene and combinations thereof.

Claim 69. (Previously Presented) The composition of claim 68 wherein the amount of the butylated hydroxytoluene is between 0 and about 0.1 percent by weight.

Claim 70. (Previously Presented) The composition of claim 69 wherein the amount of the butylated hydroxytoluene is about 0.1 percent by weight.

Claim 71. (Cancelled)

Claim 72. (Currently Amended) An anhydrous composition formulated for topical delivery consisting of~~comprising~~:

- (a) propylene glycol,
- (b) polyethylene glycol,
- (c) glycerin,
- (d) about 1 to about 50 percent by weight of ethanol,
- (e) ketoconazole,
- (f) PPG-15 stearyl ether,
- (g) hydroxypropyl cellulose,
- (h) ascorbic acid,
- (i) butylated hydroxytoluene, and
- (j) citric acid, and
- (k) a colorant,

wherein the composition is formulated as an anhydrous gel ~~and does not contain a retinoid or a steroid.~~

Claim 73 (cancelled).

Claim 74. (Previously Presented) A method of delivering a composition of claim 39 or claim 72 for the treatment of skin fungal disorders to a recipient in need of such treatment comprising topically administering the composition to the recipient.

Claim 75. (Previously Presented) The method of claim 74 wherein the recipient is a human.

Claim 76. (Previously Presented) The method of claim 75 wherein the human is suffering from seborrheic dermatitis.

Claim 77. (Previously Presented) A method of treating skin fungal disorders comprising topically administering the composition of claim 39 or claim 72 to a recipient in need of such treatment.

Claim 78. (Previously Presented) The method of claim 77 wherein the recipient is a human.

Claim 79. (Previously Presented) The method of claim 78 wherein the skin fungal disorders are associated with *T. rubrum* or *P. ovale*.

Claim 80. (Previously Presented) The method of claim 79, wherein the skin fungal disorders are selected from the group consisting of tinea corporis, tinea cruris, tinea pedis and seborrheic dermatitis.

Claim 81. (Previously Presented) A method of treating seborrheic dermatitis comprising topically administering the composition of claim 39 or claim 72 to a recipient in need of such treatment.

Claim 82. (Previously Presented) The method of claim 81 wherein the recipient is a human.

Claim 83. (Previously Presented) The method of claim 74 wherein the skin fungal disorders are associated with *T. rubrum* or *P. ovale*.

Claim 84. (Cancelled)

Claim 85. (New) An anhydrous composition formulated for topical delivery consisting essentially of:

- (a) an anhydrous vehicle consisting of about 1 to about 50 percent by weight of ethanol,
- (b) a penetration enhancer consisting of about 1 to about 50 percent by weight of propylene glycol,
- (c) a humectant consisting of polyethylene glycol and glycerin, in a combined amount of about 10 to about 80 percent by weight,
- (d) ketoconazole in an amount of about 0.5 to about 3 percent by weight,
- (e) a gelling agent, and

optionally one or more components selected from the group consisting of emollients, chelating agents, pH adjusters, antioxidants, viscosifiers, colorants, fragrances, UV stabilizers, and sunscreens,

wherein the composition is formulated as an anhydrous gel and does not contain a retinoid or a steroid.
